Professional Summary

Project Manager with experience delivering software and AI projects across product and technology teams. Strong analytical background with hands-on experience in SQL and Agile methodologies. Experienced in coordinating engineering teams, managing stakeholders, and delivering technical projects from planning to implementation.

WORK EXPERIENCE

Middle Project Manager – Maxim Technology

Sept 2025 – Jul 2026

- Coordinated large cross-functional teams across engineering, analytics, and product for a platform serving 1M+ daily orders
- Led cross-functional engineering and analytics teams, driving a 20% improvement in feature delivery velocity.
- Tracked project KPIs to monitor delivery progress and project health.
- Prioritized backlog items using SQL and product data.
- Worked with engineering teams to reduce search-related inefficiencies by 15–20%.

Project Manager (Project-Based Role, Part-Time) – Gazprom— Industry Collaboration Project 🔗 [Prototype](#)

Jun 2025 – Oct 2025

- Led development of GASIGHT, an AI-driven platform for predictive maintenance and infrastructure monitoring
- Designed predictive models that reduced unplanned downtime by 50% and maintenance costs by 20%, utilizing cost accounting to track budget variances and project-level financial impact.
- Improved early failure detection accuracy by 35% using machine learning and sensor data integration
- Optimized infrastructure performance, increasing operational efficiency by 25%
- Coordinated multidisciplinary teams across 5 countries, improving project delivery speed by 20%
- The project awarded 3rd place

Junior Project Manager (Internship) – Intelmecca

Nov 2024 – May 2025

- Supported project coordination and client operations, improving communication flow across teams by 20%
- Coordinated on-site and remote meetings, increasing scheduling efficiency and reducing delays by 15%
- Assisted in managing client relationships using CRM tools, improving response time by 25%
- Contributed to project documentation and reporting, enhancing tracking accuracy by 30%
- Managed Requests for Information (RFIs) and collaborated with international teams to resolve client inquiries, reducing issue resolution time by 25%.

Junior Project Manager (Internship) – Tbank

May 2024 – Nov 2024

- Coordinated IT infrastructure and digital transformation projects, ensuring delivery alignment with business priorities
- Planned and monitored system upgrades, managing project schedules and resource plans to improve implementation efficiency by 20%
- Coordinated communication between developers, engineers, and stakeholders, reducing misalignment issues by 25%
- Managed documentation, ticket tracking, and system testing, improving deployment accuracy by 30%
- Contributed to Agile sprints and reporting, ensuring on-time delivery of key project milestones
- Managed risk assessment and quality assurance processes, reducing post-deployment issues by 15%

Project Coordinator — Data & Policy Research Division – Saint Petersburg State University

Nov 2023 – May 2024

- Coordinated interdisciplinary projects combining data analytics and policy research, improving team delivery efficiency by 25%
- Managed data workflows and timelines, reducing project delays by 20%
- Developed interactive dashboards (Power BI), increasing data accessibility and stakeholder engagement by 30%
- Improved research transparency and data accuracy by ~35% through structured data validation processes

EDUCATION

Graduate School of Management, Saint Petersburg State University

Sep 2023 – Jul 2026

Master in Business Analytics & Big Data (MBA)

Saint Petersburg State University

Sep 2020 – Jul 2024

Bachelor's Degree in Political Science and Government

CERTIFICATIONS

Agile & Scrum (Practical Application in Projects)	2025
Business Storytelling for Data-Driven Decision Making	2025
Power BI for Data Visualization & Reporting	2025
SQL for Data Analysis and Query Optimization	2024
R Programming for Statistical Data Analysis	2023
Tableau for Data Visualization	2023
Python for Data Analysis (Pandas, NumPy)	2022

SKILLS

Data-Driven Decision Making, SQL, Attention to Detail, Python, Predictive Analytics, Power BI / Tableau, Agile & Scrum, Excel, Project Coordination, Data Analysis & Interpretation, Stakeholder Communication, KPI Development & Performance Tracking, Cross-Functional Collaboration, Data Visualization & Reporting, Problem Solving, Process Optimization, Adaptability

LANGUAGES

Spanish (Native), English (C1), Russian (B2)
